July 2019 - August 2019

ShareRails · Landing Page / App

December 2019 - July 2020

Work Experience

Risk Harbor · Product Designer

January 2021 - Present | Remote

- Designed DeFi protocol's web app from start until launch.
- Designed main landing page and website pages.
- Connecting with early users and community to collect feedback and make design improvements.

MongoDB · Product Design Intern

June 2021 - August 2021 | New York, NY

- Revamped core Atlas flows: database querying, document updating, and introduced new "Undo" pattern.
- Designed new query tool components with multiple designers.
- Led user research sessions focused on Atlas Data Explorer and led team-wide design studio to ideate usability improvements.

Salesforce · UX Design Intern

May 2020 - August 2020 | Remote

- Redesigned the MuleSoft web app home page to increase productivity and improve navigation and personalization.
- Ideated and designed new components to expedite workflows, improve access to projects, and better onboard new users.
- Built upon design system to improve interactions in web app.

Welfie · Product Designer

February 2020 - May 2021 | Remote

- Redesigned main dashboard and designed new store, chat, and COVID-19 features for a digital care platform.
- Created a design system to bring consistency to the platform.
- Created guides about the design system, design process, developer handoff, and other standards for internal use.

Onfocoin · Product Designer

April 2018 - December 2019 | Springfield, MO

- Redesigned landing page, web app, and mobile app for a cryptocurrency bringing crypto to the unbanked.
- Created social media graphics and pitch deck used to land seed-funding from several VCs.
- Received over 80K sign-ups and launched on two exchanges.
